NEW YORK, March 16.—The early strefight in to-duy's stock market, was a repetition of yearerday's movement, but triegs resisted the late pressure for a domine, and as a consequence show substantial net gains all through the listing to the late prices on the London exchange, and although prices immediately rose morantly above the London parity, there was conspicuous buying for London as late as business was done. The London mying was certainly due to a feeling at that centre that there is a more promising respect as to affairs between the United States and Spain. This feeling was nown also in the quite buoyant tone for the Spainish 4's, which rose 19, in London and 5 in Paris. There was undoubtedly a feeling prevalent in New York also also that the outlook was more peaceful, and such of the day's developments as and a more threatening aspect were ignored. Lither the Spainish Government's emi-offcial announcement of its opinion the movements of the United States heet in Florida waters or the attention of the United States had been easily the control of the United States had been easiled to ed States had been called to by the Spanish Government been sufficient to demoralize a week ago, but the underston in Wall street is that these in Washington have a accelul settlement. The contrations for defence and such those of to-day do not wholly is conviction. The hope of a dijustment of the traffic rate in the Northwest was quite at factor in the advance here in for Americans. The local ful specialities led to-day's adtenting for Americans. The local ful specialities led to-day's adtenting for Americans. but the grangers, northwestern ternational stocks in the railway sere also conspicuously strong additional engagements of gold for were made to-day without affect-steadhess of the exchange market the gold import point. The total himsent from Europe has now a \$24,000,000 on this movement, and so ho sign of subsiding, in spite of owing tightness of money a London and European centres. The accountacts of exchange are supposed to sen somewhat reduced, but there existedly a large supply still regarded to the continued heavy outhousment of merchandles is conbringing new bills into the marbith are sold against gold imports as they come forward.

Plant—Destructive Fire.

OXFORD, N. C., March 16.—Special.—
The breaks of tobacco on the Oxford market vesterday were the largest of the season. The quality of the tobacco was unusually fine and prices obtained remarkably good. Mr. Waller sold three thousand pounds for \$\Sigma\text{a}\$ a hundred. Many lots of fine tobacco brought high prices. Workmen are busy laying pipes for the acetylene gas by which the town of Oxford is to be lighted at an early day. Delay in getting the plant in running order has been caused by the non-arrival of parts of machinery needed.

THE KIBLER TRIAL.

The Case Continues to Excite Great Interest-Will Go to the Jury To-Day. LURAY, VA., May 16.—Special.—Eight days have been consumed in the trial of Kibler Argument by counsel began yesterday Captain Parks opened the case for the Commonwealth, and was follow-ed by Mr. C. M. Brown, of Berryville, for

the defence.

To-day Hon Marshall McCormick consumed five and a quarter hours for the prisoner in a speech, which was regarded as an exhaustive and able effort.

To-morrow the case will be closed by Captain Parks, and Kibler's fate will be in the hands of the jury.

Great interest in the trial still prevails, and the court-house was packed, many persons taking their dinners with them.

The Junior Order of United Mechanics raised a flag pole on the grounds of the Graded School here to-day, on which will be unfurled a handsome United States flag, a gift of the order.

Local Bills.

WASHINGTON, March 16.—Business in the lexislative session of the Senate was confined to the passage of a few bills largely of a ocal character. The national quarantine bill was not considered. When the Senate convened, Mr. Davis, of Minnesota, chairman of the Committee on Foreign Relations, reported a resolu-tion to provide for the annexation of the Hawaiian Islands to the United States the resolution was rend and placed on the

calendar.

Mr. Frye presented the report of the conferees on the bill providing for the Hcensing of mates on river and ocean vesrels and it was adopted.

The Senate then, at 12:40 P. M., on motion of Mr. Davis, of Minnesota, went into executive session. At 12:55 the Senate resumed business in open session and a number of bills were passed. At 2 o'clock, on motion of Mr. Fair-banks, of Indiana, the Senate again went nto executive session and at 4:20 P. M.

No Sectional Line Now. The President's endorsement of General

Fitzhugh Lee, by retention of that dis-tinguished Southern Democrat in a most difficult position, and his calm refusal to recall him at the request of Spain has "fired the Southern heart," so that it has fused with the Northern heart as never before since the Civil War. And the con-duct of Spain, culminating in the Maine atastrophe, has resulted conjointly with President McKinley's wise action in mak-ing us a veritable nation. Such an outburst of patriotism, such a marvellous community of sentiment, as is visible now in this country must have an incal-culable moral effect on the progress of republican ideas in Europe and must be estonishing to not a few European statesmen who have been seeing, with eyes that wished to see, signs of decadence and dry rot in the Great Republic.—The Illustrated American.

HAWAH AND CUBA ARE DISCUSSED.

Wide Range of Debate Over the Postoffice Appropriation.

MR. GROSVENOR'S STATEMENT.

He Denies That the President is Trying to Induce Congress to Get Out of His Way in Settling Our International Difficulties.

WASHINGTON, March 16.-The post

office appropriation bill, which was the technical subject before the House, was lmost lost track of in the debate to day. As on yesterday numerous topic were introduced to-day for the first tim touching on the Spanish-Cuban question, which has been kept in the back ground. The subject of Hawalian annexation also came in for more attention to-day. Mr. Williams (Dem., of Mississippi) was first recognized and in a speech of forty minutes replied to the speech made by Mr. Tawney yesterday in favor of Ha-wallan annexation. Mr. Williams is a member of the Foreign Affairs Committee, and his remarks received close at-tention. He directed his attack particu-larly against the contention of Mr. Tawney that the traditional policy of this government was not opposed to annexa-tion. He thought there was no occasion tion. He thought there was no occasion for alarm even if it were true that if we should not take the islands some other country would. The idea of the foreign ownership of a group of Islands 2,000 miles from our shores had no terrors for HAD ENOUGH OF THEM.

He said the Hawaiian Islands were now in the control of a carpet-bag oll-garchy. The States of the South had undergone a bitter experience with carpet-bag government and did not desire to endorse it anywhere. The Hawaiian Islands would be a menace instead of a safeguard to the United States. This eountry already had a race problem. To take the Hawaiian Islands would be to annex another race problem and pay \$4.

on the for the privilege of doing it.

Mr. Cochran (Dem. of Missonri), in commenting on the existing situation, declared that those who stood close to the stock tickers in London and New York seemed to be more powerful than the united and solemn voice of the American people, which for months had been crying out for the recognition of the Cuban beligerents. Stock jobbers on two continents had so far proved to be the only actual intervention in Cuban affairs.

"Do you not believe we should recognize

only actual intervention in Cuban affairs.

"Do you not believe we should recognize the independence of Cuba?" asked Mr. Sulzer (Dem. of New York).

"I do not," replied Mr. Cochran. "The recognition of belligerency would clothe the insurgents with sufficient power to negotiate honorable peace. If we should intervene our troubles would have just begun. I fear if the administration should interene it would be as the attorney of the bondholders, rather than as the friend of the insurgents."

In conclusion, Mr. Cochran referred to the current rumor that the President flesired an immediate adjournment in order that he might be able to settle the Spanish affair without interference from Congress.

Spanish affair without interference from Congress.

GROSVENOR'S STATEMENT.

Mr. Grosvenor (Rep. of Ohio) replied to this statement immediately. At first he spoke in a semi-humorous vein He desired, he said, to make a brief statement in reply to this story which was floating around to the effect that the President was shout to take the House of Representatives by the throat, abolish the United States Senate and proceed to the settlement of all our foreign complications without the aid of the representatives of the people. It should be remembered, he continued, in weighing such reports, that Congress was an independent power, the existence of which could not be ended under the Constitution. It would probably continue longer than It would probably continue longer than

doubted his independent existence. When he spoke for himself they insisted he spoke for semebody else. He did not spoke for semebody else. He did not pretend to know more than the humblest citizen, yet, he said he took the responsibility of stating that the suggestion that the President had fixed a date for the adjournment of Congress or desired to fix a date or had expressed a hope that Congress would adourn by a certhat Congress would adjourn by a cer-tain date was absolutely without foun-dation and ridiculous into the bargain. Congress could not adjourn except by a majority vote of its members and he had majority vote of its members and he had no doubt that every member responsible to his conscience and his country would do his duty as he saw it, in the matter of adjournment as in everything else. TRIBUTE TO M'KINLEY.

Mr. Norton (Dem. of Ohio) who followed Mr. Grosvenor paid a high tribute to the pairiotism and judgment of the President. If left to himself to exercise his judgment. Mr. Norton said, he would be glid to follow, but he feared that Mr. McKinley was beset as Grant had been when he wished to recomple the been when he wished to recognize the independence of Cuba by a trocha which required the genius of a god to surmount. He declared that it was the duty of Congress to remain at its post and see what was to be done. If war was not upon us Congress had made a mistake, he said. n practically abdicating its powers and clacing \$50,000,000 in the President's hands. If it was upon us it was right that the President should give back to Congress the confidence it had reposed in him. Irespective of party, Congress wanted to now if it was peace or war. Mr. Slayden (Dom. of Texas) contribu-

ted something to the controversy relative to the advantages possessed by the southern cotton bills. The debate then drifted back to the bill and the House at 5:10 adjourned.

Town Council the privilege of putting up a telephone system in the corporation to be exempt from town taxation for five years. The line will extend to the public institutions outside of the corporate limits and to Boydton, the county seat.

The last reports of the four banks in

the county of Mecklenburg to the State Auditor show a decided increase in bus-iness. The report of the Bank of Chasa City the same day of the month four years ago as the present year exhibit the fact that its resources and business have

About 80 per cent, of the 1897 crop of tobacco in the section tributary to this mar-ket has been sold. The prices have been very good and the farmers are in a great-

y improved financial condition.

There has been an unusually small quantity of rain or snow within the last bree months. The lands are in fine conlition for crop preparations and the pub-ic highways are in excellent order for this season of the year.

There are a group of mineral wells here which by analysis show entirely different which by analysis snow emergence constituent ingredients and some in close proximity to each other. Rev. Dr. Thos. Drew has had the waters of his spring the wells analyzed and prew has had the waters of his spring not far from the wells analyzed and scarcely a trace of mineral elements can be found. It is pure water. Scientific men say this is not rare as diverse min-eral constituents are always found in the same locality. This is known to be true of the Buffalo Lithia in this county, and especially so of the wonderful Farmville group of mineral waters.
